

WAR CLOUD SETTLES OVER GREAT POWERS OF EUROPE

(Continued From Page One.)

morow. The only reply declares that the representations of the powers are vague and were made at too late a date.

The military prospects are no complicated that experts are unable to make prophecies, while the political conditions are still more complicated. Vienna and St. Petersburg newspapers are printing articles hinting at bad faith. The Austro-Hungarian press accuses Russia of secretly backing the combination against Turkey. A section of the French press blames Great Britain, declaring that she prevented the powers from making a strong stand against the war.

Italy to Participate.

Europe is amazed at Turkey's failure to accept the Italian peace terms at this critical moment and is worried because Italy's participation in the war there is danger of drawing in the other powers.

All the stock markets suffered a deplorable day. Berlin appears to have been the most distressed. British consols reached the lowest point in history. The Russia, St. Petersburg, says the fall in prices was due less to the Balkan situation than to the operations of a clique of bear speculators anxious to enrich themselves at the public's expense.

The British chancellor of the exchequer, David Lloyd-George, in an address tonight, said:

"The prospects seem to be that in very short time the eastern horizon will be limited and the whatever may be the issue of the conflict between the combatants, one result will ensue, that the boundary of freedom and good government will be extended."

The British Red Cross society is preparing to send large contingents to the front.

DESPERATE FIGHT FOR TURKISH TOWN

LONDON, Oct. 12.—Desperate fighting for the possession of Barana between the Turkish and Montenegrin armies in the vicinity of Lake Scutari is in progress.

The town has been repeatedly taken and retaken by both sides, says a dispatch from Cetinje today. Turkish troops repulsed the Montenegrins after another sharp engagement at Tushi.

The Montenegrin general, Lazovitch, has taken the place of General Bonovitch, who committed suicide when the king repudiated him on the field of battle for wasting ammunition.

Tension increasing.

From all the capitals today came news of increasing tension and continued preparation for war, and this has spread now to Vienna and Budapest. Reassuring statements have been issued from several quarters, but undoubtedly with the object of stemming a panic of selling on the bourse.

The text of the note handed by the representatives of the powers to the Turkish government proves to be more feeble even than was anticipated, and as it contains no suggestion that the powers will undertake to guarantee carrying out of reforms in Macedonia, it is not likely to have any effect in allaying public feeling in the Balkans, which is all for war.

The reply of the Balkan states, like that of the Turkish government, has not been delivered.

In Turkey war is accepted as a certainty.

The organization of small bands of Bulgarian and Serbian guerrillas to operate in certain districts of European Turkey is described in a special dispatch from Saloniki. Their work will be chief-

ly that of inciting the village populations in the frontier districts to revolt, and, in case of their refusal to do so, the bands are said to have been ordered to burn the houses and massacre the inhabitants.

Maltreatment Denied.

The reports of maltreatment of the Turkish population in Bulgaria are denied in a dispatch from Sofia, which declared that no insult of any kind had been offered to the Turkish legation or consuls in Bulgaria.

Austria, says a Vienna dispatch, intended to take immediate action in case either Turkey or Serbia should invade the Sanjak of Novi-Pazar.

The concentration of the Serbian forces has been impeded by a scarcity of transport facilities. Three main armies, aggregating 200,000 men, are being formed by that country. One of them is mobilizing at the Tzaribrod, on the Bulgarian frontier, and is to co-operate with the Bulgarian troops. Another is gathering at Milanovitch and Nish in preparation to advance against Uskup, while a third is mobilizing at Kralievo and is to penetrate the Sanjak of Novi-Pazar.

Seventy Serbian villages in the Sanjak of Novi-Pazar are reported from Vienna to have been burned by the Turks. The Moslems are said to have taken swift reprisals and to have suppressed the revolt by executing all the ringleaders, including numerous priests.

RUSSIANS TO FIGHT IN BEHALF OF SLAVS

By General Count Spiridovitch, President of the Slavic Societies.

Special Cable to The Tribune.

PARIS, Oct. 12.—Official Russia will make effort to localize the war, but the whole Russian population of 170,000,000 is ready to help the weaker brethren in the quadruple alliance of Bulgaria, Serbia, Greece and Montenegro.

They have made a great stroke of policy by pushing little Montenegro ahead, with its population of 500,000, against the 25,000,000 of the Turkish empire. The whole Slavic race is proud of this heroic step by King Nicholas, the greatest of Slavs, "the glorious old eagle of Montenegro," as they call him.

Men and money will pour from Russia after the first news that Slavs have been killed. You cannot push a Russian backward. He will go forward, and he goes ahead himself when the question is of helping the weak. When the Russian people hear today of Christian massacres by the Turks, they cannot be held back from helping their brethren.

Has Powerful Relatives.

King Nicholas, now at the head of the Montenegrin troops, is a descendant of Russia, father-in-law of the king of Italy and of the Grand Duke Nicholas, commander-in-chief of the Russian army, numbering 6,000,000 men.

The attitude of France and England makes the task of driving Turkey out of Europe harder. They have to co-operate with them—in the creation of Macedonia and Albania independent states.

Armenians must have a Christian governor general; Croats, Epirus and the island must be handed over to Greece; Old Serbia to Serbia; the strip of territory called Bazar Sanjak, between Montenegro and Serbia, should be given to Montenegro.

That leaves Turkey, Adrianople and Constantinople, which is the prize of the enormous territory of Asia Minor.

The provinces seeking freedom have few Turks except troops. The people are Armenians, Greeks, Bulgarians, and they are not likely to be converted to Islam. Hence, the richest of European provinces look like deserts and bring no income to the impoverished rulers of Turkey, whereas if they were free they would develop into prosperous countries like Bulgaria.

Causes of the War.

The cause of this war are: First, Turkish misrule of her Christian provinces, a disgrace to civilization. There is no blinder blot upon the civilization of Turkey, where she has permitted Turkey to tyrannize over her Christian provinces.

Second, continuous massacres throughout the Turkish empire, massacres quite as frequent under the Young Turks as when he whom Gladstone called Abdul the Damned reigned at Constantinople. There are no enterprising newspapers to publish the red records of murder. One can get no news out of the Turkish empire, but if the American people want to know the extent of the massacres in Armenia and elsewhere.

Bourses in Panic.

LONDON, Oct. 12.—The stock market closed weak and nervous today after experiencing the most depressing week for some time. The weakness was due to the commencement of war in the Balkans, which caused a heavy fall in prices in practically all sections.

Dealers in stocks took the first unfavorable news from the near east calmly. They marked down a few quotations in a precautionary manner, but when panicky selling by Paris and Berlin started in foreign shares, the relapse became general, principally in the speculative departments. The fortnightly settlement with heavy differences to meet caused local forced liquidation, and, despite a temporary recovery on hopes of the powers being able to check the war, the heaviness became

Healthy, Wrinkle Free Skin Easy to Have

(From the Woman Beautiful.)

A dull, drab, muddy complexion, or a blotchy, pimply, or freckled skin may be a quite simple, harmless and inexpensive method be changed to one of flower like radiance and purity. One ounce of common mercurized wax, sold by druggists generally, will remove the most unsightly blemishes in from one to two weeks. By its remarkable absorptive power, the withered, faded or discolored layer of thin film which hides the healthy skin underneath is gradually cleared off, in tiny, almost invisible particles. This is done so gently there is no inconvenience, and no trace is left on the skin except that of enhanced beauty. The wax is smeared on like cold cream before retiring, and removed in the morning with warm water.

If the skin be wrinkled or saggy, a face bath made by dissolving 1 oz. powdered salicylate in 1 pt. witch hazel will be found most effective. Combining both astringent and tonic properties, this tightens the skin and braces up its supporting muscles.

If You Are Becoming DEAF or are troubled with Ringing Noises in the Head My Illustrated Free Book Contains JOYFUL NEWS

I do not offer you make-shifts such as artificial ear drums or other apparatus; I do not approve of saturating your system with habit-forming drugs. I am not content to merely give you a brief period of relief from deafness but my aim is TO CURE YOU PERMANENTLY

I am a practicing physician of 33 years' active, extensive, experience. I know the only satisfactory method of curing deafness and ringing noises in the head. I have published a book on this subject in English, plain language and illustrated. It tells you facts you probably never imagined and you may see just why my method never succeeded in getting a real, lasting cure before. It is the only method which has been tested and it tells all about the one method you should adopt and which is comparatively inexpensive.

DEAFNESS IS DANGEROUS

There always was some danger in being deaf but the invention of rapid speed automobiles, no draft or partly deaf person can feel safe. Accident to those who could not hear well are being recorded by thousands. Moreover, deafness is being caused by forcing them to listen to the noise of the automobile. It is written in easy, plain language and illustrated. It tells you facts you probably never imagined and you may see just why my method never succeeded in getting a real, lasting cure before. It is the only method which has been tested and it tells all about the one method you should adopt and which is comparatively inexpensive.

SHORTENING YOUR LIFE

My book tells you how I have cured cases which have been given up as hopeless. It explains wherein you may gain wonderful benefit from the very outset. It is a book for men and women of any age. It fearlessly exposes the frauds that prey upon those who are deaf. It shows you how Nature is patiently waiting for you to give her a chance to help you. This book you BOOK ABOUT may say is WORTH ITS WEIGHT IN GOLD to you, yet it will cost you nothing but the expense of a postcard or stamp in writing for it.

DR. C. E. COUTANT Station E, 365 B, New York, N. Y.

more pronounced Friday and today, and everything from consols to kaffers declined sharply.

America's shares resisted the depression fairly well until Friday, when Wall Street and the continent threw out stocks freely, and today another relapse, due to renewed continental selling, put values generally \$2 to \$5 lower than in Saturday, while Canadian Pacific lost 17 points.

Cross the Border.

CONSTANTINOPLE, Oct. 12.—Montenegrin troops have crossed the border into the Sanjak of Novi-Pazar and are now attacking Sieritz, according to official information received by the port of Sieritz. Sieritz is a town close to the Serbian frontier.

Turks Fight Desperately.

LONDON, Oct. 12.—Turkish troops on the Montenegrin frontier are offering stubborn resistance to the Montenegrin advance on Scutari, according to the latest advices from Podgoritz. The fighting has been severe, both armies losing heavily. The Montenegrin army is advancing in two columns, one operating to the north of Lake Scutari and the other having its base at Antivari, to the south of Lake Scutari.

King Nicholas' infantry proved adamant. The heavy fighting involved in the attacks by the Montenegrins on the forts at Schipchick hill, Rogame and Branyca cost in killed and wounded 800 men to the Turks and 400 to the Montenegrins. The arrival of the Montenegrins wounded at the frontier gave rise to rumors in Cetinje that the Montenegrin army had been defeated.

Other reports say that villages on both sides of the Broya river, where the Montenegrin general, Martinovitch, is said to have met with a check from the Turks, are in flames, and that General Vukotitch, who is operating in the Broya district, has crossed the Lim river with his troops.

A Turkish account of the operations from Saloniki says the fighting has been fierce, but that the Turkish troops have held their positions.

A special dispatch from Cetinje says official information has reached there that the Montenegrin troops yesterday occupied Biyelsk in the Sanjak of Novi-Pazar, without resistance, and are now marching against Cuhane.

Collective Note.

CONSTANTINOPLE, Oct. 12.—The text of the collective note handed by the representatives of the powers to the Ottoman government on Thursday is as follows:

The undersigned, ambassadors of Austria-Hungary, Great Britain, France, Russia and Germany, have been instructed by their respective governments to inform the Ottoman government that the powers take note of the intention of Turkey, publicly announced, to introduce reforms, and immediately discuss with the port, in the spirit of article 23 of the treaty of Berlin and the law of the reforms required in the administration of European Turkey, and to measures capable of assuring their realization in the interest of the populations. It being understood that the reforms will not affect the territorial integrity of the Ottoman empire.

Turkish Version.

CONSTANTINOPLE, Oct. 12.—The relief of the town of Berna by Turkish reinforcements is reported by the military commander of Scutari today. He states that the Turks have recaptured the heights around the town of Gushino near the Montenegrin frontier to the northwest of Podgoritz.

Bulgarians blew up two bridges between Tigo and Kotschana during the night, according to a telegram from Uskup.

Sultan's Proclamation.

LONDON, Oct. 12.—Four enemies are gathering on the frontier, seeking to snatch your patrimony from you and to destroy the happiness of your sons and grandsons. It depends on you to prevent them from treading one inch of the sacred soil soaked in the blood of your ancestors. Fight with the courage of those ancestors.

Thus the sultan of Turkey today issued a proclamation and ordered the mobilization of his army to defend the empire.

Time Limit Expires.

ROME, Oct. 12.—Italy's limit of time granted to Turkey for the definite conclusion of peace expires today, after which, if any clause of the proposed agreement is not accepted by Turkey, Italy will consider herself free to continue operations.
